1. Customers must review their orders prior to submitting them to Tanury. Customers should combine work, when finish permits, to avoid incurring minimum rack charges.
2. We require customer's UPS and FedEx numbers to be used when shipping sample ticket orders back.
3. Tanury will not guarantee re-work items or gold thickness on each piece or small lots.
4. New minimums will translate to production and sample jobs for all customers.
5. Tanury has full discretion as to how many pieces can be successfully plated on a rack.

Tanury strives to ensure that your orders are processed in the most effective and cost efficient way possible and we thank you for your continued business.
